PUTLAND HOUSE

Havre de Grace, Md.

c. 1830's or 40's

The Putland House is, like many buildings in Havre de Grace, built on an earlier foundation. The basement, dating perhaps from pre-1813, (the year the British burned the town) has an interesting fireplace that has a semi-elliptical opening and a relieving arch. The building itself is a two story three bay wide frame house with an ell on the rear.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

624 S. Washington Street is a two and a half story, three bay by three bay, detached frame dwelling with a gable roof. A two story wing with a one story kitchen addition and shed is joined at the rear. The house faces east on the corner of S. Washington St. and Alliance St. It is covered with aluminum siding. A lighted brick basement, three bays wide and one room deep, is under the front section of the house; elsewhere the foundations are granite and brick. The building probably dates from around 1835 with an earlier basement.

A three bay, above grade porch extends across the front of the house, having modern metal trellis railing and posts supporting a tin hipped roof. Wooden steps lead to the entrance in the north bay. Two pilasters remaining on the sides of the house indicated the appearance of the earlier posts. A two story, two bay porch is on the south elevation, it also has modern metal trellis railing and posts supporting a flat roof.

Windows on the facade have 6/1 light, double hung sash; the dormer and gable windows have 6/6 light, double hung sash while the east bay of the wing has 6/6 light casement windows on both stories.

The main entrance is in the north bay of the facade. The doorway, recessed behind louvered shutters, contains a door with four deeply molded curved panels with a single light transom, having curved ends, above it. Other entrances are found in the wing, opening on to the two story porch, and on the rear. A bulkhead is on the south wall, main block.

The roof on the main block is gable flank, covered with slate shingles; it has a molded box cornice. A dormer with a triangular pediment, pilasters and a window having 6/6 lights with an arched upper sash is in the center of the roof on the front elevation. A large rectangular brick chimney rises from inside the east slope, south side. The wing also has a slate gable roof.

The house has a large yard surrounding it and there are no outbuildings.

Interior: The house has a side hall plan. The interior has been extensively remodeled and the fireplace on the first floor is covered. However the fireplace (relatively small), visible on the south wall of the basement, although filled in, has a semi-elliptical ^{opening} with a radiating brick arch above it. The supporting beams in the ceiling have been covered with boards.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

Like many houses in Havre de Grace built on earlier foundations, the brick basement underlying the front of the main section of the Putland House is believed to date from the early (pre-1813) 19th century. In that year British troops burned the town with the exception of a few buildings. The house itself is a two and a half story, three bay frame house built in a style which H. Chandlee Forman calls "Hangover Georgian". The most interesting architectural features of the house are the basement fireplace having a semi-elliptical opening (no longer open) and radiating brick arch in the wall above it; the pilastered dormer with arched upper sash and the rectangular interior chimney.

The house is located in a neighborhood of predominately frame houses with Gothic Revival fronts.
